WORK EXPERIENCE

Information Officer

Sesioana Stress Management Centre (SSMC) | Maseru, Lesotho | June 2026 – Present

• Designing and developing a full SSMC digital system including online appointment booking, client management and automated reminders
• Integrating payment APIs including M-Pesa, EcoCash and bank payment gateways into the system
• Leading AI integration into the SSMC platform to automate client interactions and service delivery
• Administering and maintaining all office IT systems, hardware and software
• Providing first line IT support for staff including PC troubleshooting, printer maintenance and peripheral setup
• Managing and configuring network infrastructure including routers and connectivity issues
• Supporting daily office operations, digital coordination and document management
• Creating and scheduling social media content across SSMC platforms
• Preparing reports, quotations and proposals for corporate clients

Quality Control Agent
Sky Business Inc. / M-Ploy Market Research | Maseru, Lesotho | January 2026 – June 2026

• Performed structured data quality checks using SurveyCTO and Frontline Research Group systems
• Identified and resolved data inconsistencies and system related issues
• Validated data accuracy, completeness, and integrity
• Reviewed Excel datasets and generated reports
• Detected duplicate and incorrect entries
• Validated GPS coordinates and timestamps to confirm fieldwork authenticity
• Identified duplicate submissions and incorrect SKU entries to maintain dataset integrity
• Provided feedback to improve data and system processes
• Attended project training workshop covering fieldwork methodology and data collection standards for the Gallup World Poll Survey 2026
• Conducted quality control on survey data for the Nationwide Landscape Survey Q2 2026 under M-Ploy Market Research
• Temporarily supervised field teams during data collection ensuring correct survey procedures were followed

IT Support & Cybersecurity Trainee
Lesotho Defence Force (LDF) | Maseru, Lesotho | July 2024 – November 2024

• Provided first line IT support for staff, resolving hardware, software, and connectivity issues
• Installed, configured, and maintained desktops and laptops, including RAM upgrades and PC assembly
• Configured and reconfigured network cabling and endpoints to restore stable connectivity
• Supported internal systems by installing applications, setting up user access, and assisting users during onboarding
• Collaborated in the development and support of an internal loan management system
• Performed basic security testing and system checks using Kali Linux under supervision
• Prepared structured documentation, dashboards, and summaries for technical and non-technical stakeholders
• Received Certificate of Appreciation for outstanding dedication and commitment
